

From New hope Church family

“Glad I got Jesus down in my heart” is the song that Brother Mandel was known for singing to get our congregation on fire for the Lord. Isn't it a blessing to not have to wonder where Brother Mandel is at this moment? So often in times like this we pray that our family member is with the Lord. Mandel we know for sure is with our Lord and Savior Jesus Christ.

"God Needed a Friend"

Did God need another angel? Or someone He knew that would care? Someone who always thought of others and when needed was always there.

Did God need another angel? Or someone to be more helpful in Heaven above? Even though you were treasured here on Earth I guess He noticed your kindness & your love.

**Did God need another angel?
Or someone He knew was worthwhile?
Someone to share in His spiritual inspirations
And someone with an awesome smile!**

I guess God watched you from Heaven and choose someone He knew was special. I've cried to God in anger why did you need another angel?

**And then the answer hit me & its quite simple for now,
I'm no longer saddened, Because, God DID need
another angel but he also needed a friend!**

Just as you were loved, so shall you be missed.
